# INTRODUCTION

Thank you for your interest in brokering loans to Grand Bank. We hope you find this guide useful in answering some of the basic questions regarding how we go about purchasing owner-financed loans. Should you have any questions, about this material or otherwise, please give us a call at 1-800-300-1467.

Grand Bank, chartered in 1968, is a federal savings bank with principal offices located in Hattiesburg, Mississippi. Unlike other banks, one of our primary focuses is the purchase of owner-financed notes secured by real property. The Bank purchases notes throughout the U.S. without geographic restriction.

Our management team (including the President and Chief Executive Officer) started their careers as brokers of owner-financed notes under Mortgage Funding Corporation (a pioneer in our industry), which is an affiliate of Grand Bank. This unique perspective, and thirty plus years of purchasing owner financing are reflected in the Bank's programs, tailored to allow you the flexibility and creativity required to negotiate and close the sale.

Grand Bank utilizes its own capital and buys loans exclusively for its in-house portfolio. This allows for quick decisions on even the most unconventional note and achieves your primary goal of closing the deal...fast.

This guide includes general information, purchase programs, and forms which will aid you in transacting business with Grand Bank. As you review the information, please keep in mind that we purchase notes and contracts for deed secured by all types of collateral, including single family, land, commercial, etc. We offer the most competitive rates in the industry for credit grades ranging from A to D-.

Please be assured that we want to be the end funding source for each loan you broker. Relationships are important to us, and we hope that your review of this guide will be the beginning of a long, mutually beneficial relationship for our respective organizations for years to come.

# GENERAL INFORMATION

## **QUOTES**

Quotes are provided by our Contract Buyers either directly over the telephone, by fax, regular mail or via Email at [notebuyers@grand.bank](mailto:notebuyers@grand.bank). A copy of our quote sheet is included in the Forms Appendix of this package. There is no requirement that you use our form, but we do ask that you give us the same information as requested on our form. Our turnaround time for hard copy quotes is usually the same day. If you have not received a requested quote within 24 hours, please call us at 1-(800) 300-1467.

Our quotes are given on a net basis. This means we process and pay for all closing costs including appraisal, underwriting and processing fees. No surprises and no hidden fees! Most brokers take 3%-6% of the Unpaid Principal Balance. You deduct your commission and present the remaining amount to the note seller.

Unless you tell us otherwise, we assume that the debtor is personally liable and that the payors on the note have good credit. If you know otherwise, please inform us so that we can avoid any unnecessary quote adjustments.

We also assume, unless you tell us otherwise, that the subject property is in good condition and that its value is at least equal to the sales price.

## **CREDIT SCORES**

We are your top source for all paper, regardless of credit quality. We purchase notes on credit scores ranging from 550 to 800+. Call us for a quote on your unusual and difficult notes. Grand Bank specializes in transactions others "just can't do", allowing you to close more deals.

## **SEASONING**

Grand Bank requires a minimum of 3 months seasoning on every note it purchases. Notes with less than 12 months seasoning will typically only be considered if the borrower has at least 10% equity. The bank will not consider purchases of "simultaneous closings".

# GENERAL INFORMATION

## **APPRAISALS**

Grand Bank typically prefers to order its own property valuations from its national network of approved real estate agents or appraisers. On most transactions, a "drive-by" inspection for an opinion of value, comparative market analysis, or appraisal will suffice. Lower investment-to-value properties may only require a property inspection just to check condition. We prefer to review photos of the subject property with the initial submission so that we can make a good determination of the level and scope of valuation which will be required. Of course, a majority of the time photos of the property can be obtained through an online search.

## **TITLE INSURANCE**

The bank must have a mortgagee's title policy in an amount equal to the remaining balance of the loan being purchased for each loan purchased. Only title policies from national companies are acceptable. Either the broker or the bank can order title, but the policy must be issued in the bank's name at closing. Policies that automatically inure to the benefit of the current assignee may be acceptable under certain conditions. Please contact your Grand Bank contract buyer for more information.

## **PAY HISTORIES**

Grand Bank requires a verifiable pay record (bank deposits, cancelled checks, escrow statements, etc.) evidencing the constructive receipt of payments remitted by the debtor. In the event that such a pay record is unavailable, the underwriter may choose to gather additional information related to the ability of the debtor to pay.

## **CLOSINGS**

Grand Bank's prefers to close loan purchases directly with the Seller of the note through an approved title company or escrow agent. Closings are arranged through the title insurance company that issued the title commitment and will be issuing the final Mortgagee's Title Policy. If a mortgagee's title policy already exists and fully inures to the benefit of Grand Bank, a third party attorney may be used to close the transaction. Grand Bank will forward a detailed letter of instruction to the closing agent, with applicable Mortgage Purchase Agreements and other necessary documents. Net proceeds (funds disbursed to the seller after closing costs) are generally wire transferred to the closing agent, and upon proper execution of all documents, are released to the seller. Broker fees are remitted from the Bank's home office upon receipt and review of the completed documents executed at closing. This insures that broker fees are kept confidential and are not disclosed to the Seller.

# FILE SUBMISSION GUIDELINES

In many instances, sellers of owner-financed notes either did not keep or have lost various documents related to the closing of their receivable. Processing and underwriting time can be minimized tremendously by having copies of the completed transaction between the buyer and seller forwarded directly to Grand Bank from the original closing agent/title company. This also has the added benefit of relieving the seller from the confusion of accumulating the various legal documents Grand Bank requires in underwriting the file.

The following documents are required by the Bank to process and underwrite receivables. In the event that some documents are not available, the Bank may choose to perform additional underwriting in lieu of the missing documentation. You may choose to gather the majority of this information yourself and submit the completed package to the Bank, or simply allow Grand Bank to correspond directly with the seller in obtaining the required documents, freeing you to concentrate on the next transaction while still receiving payment of your fee.

- (1) Purchase Account Information Sheet (see Forms Appendix)
- (2) Copy of Signed Option / Purchase Agreement between broker and seller (see Forms Appendix)
- (3) Information regarding debtor (place of employment, income, etc.) (see Forms Appendix)
- (4) Copy of Note
- (5) Copy of Mortgage / Deed of Trust / Contract for Deed
- (6) Copy of Closing Statement
- (7) Copy of Title Policy
- (8) Copy of Hazard Insurance Policy
- (9) Copy of Verifiable Pay Record
- (10) Complete address and legal description of property
- (11) Debtors' social security numbers / Tax I.D. numbers
- (12) Pictures of collateral.

Other documents may be available and will enhance Grand Bank's ability to expeditiously underwrite the file:

- 13) Most recent appraisal
- 14) Map and/or plat of property
- 15) Survey (if applicable)
- 16) Debtor's Financial Statement and Tax Returns, and/or recent pay stubs
- 17) Real Estate or Earnest Money Contract
- 18) Warranty Deed

# FUNDING OPTIONS

## **FULL PURCHASE**

The owner sells all of the remaining cash flow payments to the Bank and retains no interest in the note. This is the most traditional method of purchasing notes wherein the entire remaining amounts due under the receivable are assigned to Grand Bank, with the seller receiving one lump sum payment at closing.

## **PARTIAL PURCHASE**

Grand Bank purchases only a specified portion of the next ensuing payments and the owner retains an interest in the remainder. The loan is reassigned to the seller upon receipt of the amounts due the Bank.

## **INSTALLMENT PURCHASE**

An installment purchase is a combination of two or more partials paid out over specified periods which may or may not culminate with a final full purchase. Put simply, an installment is a partial purchase with an option to buy another agreed upon income stream of the loan at a future date. As with partials, this purchase method works best when the seller has an immediate need for a specific amount of cash and/or the note is at a high loan-to-value (LTV) ratio. This program is extremely attractive for those owners who "really don't want to sell." For example, Grand Bank will fund installments on as little as a twelve-month basis, allowing the owner to get a lump sum every year (with virtually no discount on the cash flow) and the Bank assumes all collection responsibilities and tax reporting to the IRS.

## **SPLIT PAYMENT**

A full or partial purchase with a percentage of each payment purchased being collected and returned to the seller. Grand Bank's split payment program involves splitting the payment amount and the owner retaining a portion of each payment. Naturally, the owner receives a lump sum cash payment at closing and will receive an agreed amount of the monthly payments as remitted by the debtor.

## **COMBINATIONS**

Grand Bank will combine any of the above purchase plans to create split partials, split installments, etc. Simply call us with your owner's particular requirements and we will tailor a program that will satisfy even the most unusual cash needs.

# USEFUL TERMS

## **BALLOON**

The final payment of principal under a balloon mortgage, possibly representing a substantial portion of the original amount borrowed.

## **CASH ON CASH YIELD**

Calculated in mortgages with balloon payments, this is the yield required to prevent negative amortization of the investment balance.

## **GROSS QUOTE**

An offer to purchase not adjusted for costs. From the seller's perspective, they will receive the quoted amount less closing costs and broker's fee.

## **INVESTMENT-TO-VALUE RATIO (ITV)**

The relationship between the amount of money invested and the value of the property. For example, a \$75,000.00 investment on a property valued at \$100,000.00 would represent an 75% investment-to-value ratio.

## **LOAN-TO-VALUE RATIO (LTV)**

The relationship between the amount of money borrowed and the value of the property. For example, a \$80,000.00 loan on a property valued at \$100,000.00 would represent an 80% loan-to-value ratio.

## **MULTIFAMILY**

A structure consisting of more than four (4) housing units.

## **NET QUOTE**

An offer to purchase adjusted for costs. This means we process and pay for all closing costs including appraisal, underwriting, and processing fees. You deduct your commission and present the remaining amount to the note seller.

## **SEASONING**

Refers to the length of time a loan has been in existence. The longer that time, the more "seasoned" the loan.

## **UNDERWRITING**

Detailed review of the loan package resulting in recommendations to the loan committee as to the desirability and risk of purchasing the loan.

## **YIELD**

The annual return on an investment stated as a percentage of the amount invested.
